

AVIATION TOOLING FROM OMEGA TECHNOLOGIES

Hi-Lok Collar Removal Tools

Collar removal tools are for the removal of threaded collars and come in a variety of shapes and sizes to meet the wide range of collar removal that is necessary in the aviation industry.

Hi-Lok Installation Tools

Unique aircraft fasteners require specialized tooling for proper installation. Hi-Lok® installation tooling from MRO Tools include Box Ratchets, Hand Ratchets, Grip Scales, Hex Keys, Protrusion Gauges, Roller Ratchets and Installation Sockets.

Piloted Aircraft Stop Countersink Cutters are used to make precision countersinks to accept flush-head fasteners and are used throughout.

Quality generic **Bits, Bit Holders, Extensions and Hand Drivers** are designed to respond to the ever-changing demands of driver applications.

Designed to facilitate accurate rivet hole drilling for standard plate nuts, **Nut Plate Jigs** by Omega Technologies are manufactured to precise tolerances.
